

AIRMAIL

VOLUME 30 :: ISSUE 12 December 2018

Last months Mystery Airplane

Here it is, a **Beechcraft D-18**. As I mentioned in my earlier email the mystery was solved by Mr. **Harold Zweiacher**. He not only solved it, turns out that he flew one of these for several years on the US mail route. He has to have some great stories to share regarding that part of his life. Anyway some other suggestions were Electra's and the Song Bird that Sky King flew. Some of the younger members are now asking "Who is Sky King"? Wow has it been that many years ago?

2018 Blacksheep Christmas Party!

Hope you had a chance to attend, we had a good time and we certainly had a lot of really good food. Special thanks to all the ladies that went that extra mile to help make this work out. The video that Wes put together was very well received and featured several really excellent photo's contributed by Don Livermore. Thanks to both of you guys.

Santa jokes for the grandkids and kids!

With the holidays, I thought you might need some jokes for your kids or your grandchildren. Here you go!

1. **What would a reindeer do if it lost its tail?** (Go to a "re-tail" shop for a new one)!
2. **What's Red and White and Red and White and Red and White?**
Santa rolling down a hill!
3. **What do snowmen eat for breakfast?**
Frosty snowflakes!
4. **What nationality is Santa Claus?** Why he is North Polish
5. **What do you call someone who doesn't believe in Santa Claus?** A rebel without a Claus!
6. **What do you get when you cross a snowman with a vampire?** Frostbite!
7. **What do you call Frosty the snowman in May?** A puddle!
8. **What do you call people who are afraid of Santa Claus?**
Claustrophobic!

Okay skip the applause, I will just leave you with a wish that you have a wonderful time during the holidays with your family and friends.

Best wishes from all the officers of the Blacksheep Squadron! See all of you next year! Rick, Darrell, Butch and Ron
